RESPONSE

Commissioner for Patents
P.O. Box 1450
Alexandria, VA 22313-1450

Sir:

Responsive to the advisory action of October 14, 2003, Applicant requests reconsideration of the application in view of the remarks presented herein.

The Examiner has refused entry of the amendment on the basis that they raise new issues. The Examiner indicates that a new limitation has been presented in claim 1 and has objected to the method claim 23 as requiring further consideration and/or search.

Applicant respectfully requests the Examiner to enter the amendment since it is believed that claim 1 in its present form is allowable. It is a combination of claims 1, 11 and 22 which the Examiner has indicated as being drawn to allowable subject matter. Therefore, entry of the "30 to 70% by weight" does not raise a new issue as it merely combines claims 1 and 11 and claim 22 has been incorporated into the combined claim in

order to put claim 1 in its amended form into allowable form. Therefore, entry of the amendment to claim 1 is deemed to be proper.

With respect to method claim 23, it is not believed to raise any new issues since it is merely the method of using the composition of claim 1 amended which subject matter the Examiner has indicated to be drawn to allowable subject matter and therefore, it does not require any further consideration since it is merely the use of a composition which the Examiner has deemed to be allowable. Therefore, entry of the amendment is requested under the provisions of Rule 116 for purposes of appeal as it puts the application in condition for allowance or in better condition for appeal.

Respectfully submitted,
Muserlian, Lucas and Mercanti
